

FMP-3095 · Weekly KPI Update Process

Reference: FMP-3095 | Department: Other | Date: 9 Nov 2026 | Confidence: High (83%)

Executive summary

The weekly KPI update process is inefficient and lacks consistency. An internal tool can streamline this task, ensuring a standardized approach.

Use case card

- Use case: Weekly KPI Update Process
- Problem and frequency: Every Friday I write the weekly update for my team. I take an aggregated KPI table (contacts per category, average handling time, backlog size, with no names and no user IDs) and write about 150 words on trends, risks and one ask. It takes about an hour, and the tone is different every week. My team lead reads and approves the text before I post it in our team Slack channel. (Weekly)
- Internal answer: KAi Assist: Export the KPI sheet (aggregated, D2); Upload it in Analyse table; Ask for a short update with trends and risks
- External answer: None
- No internal solution: No
- Evidence and size: Automating KPI Reports: A Practical Guide, 2025; KPI Dashboard: Automated KPI Tracking Made Easy, 2025.
- Compliance: 🟠 Amber (A1, A5, R1, R3) · no review needed
- Effort: Medium
- Impact: High
- Related past project: P-01 KAi Assist rollout

- Tool owner: AI Enablement (CPO)
- Quality: rerank 0.671 · groundedness 0.9
- Employee feedback: pending (arrives later, see Airtable)

Internal tool improvement ideas

- Improve user interface for easier navigation (confidence: High)
- Integrate more automation features for report generation (confidence: Medium)
- Enhance training resources for better tool utilization (confidence: Low)
