

FMP-3106 · Weekly KPI Reporting Process

Reference: FMP-3106 | Department: Other | Date: 9 Nov 2026 | Confidence: High (83%)

Executive summary

The weekly KPI reporting process is inefficient and inconsistent. An internal tool can streamline this process, while external options are also available.

Use case card

- Use case: Weekly KPI Reporting Process
- Problem and frequency: Every Friday I write the weekly update for my team. I take an aggregated KPI table (contacts per category, average handling time, backlog size, with no names and no user IDs) and write about 150 words on trends, risks and one ask. It takes about an hour, and the tone is different every week. My team lead reads and approves the text before I post it in our team Slack channel. (Weekly)
- Internal answer: KAi Assist: Export the KPI sheet (aggregated, D2); Upload it in Analyse table; Ask for a short update with trends and risks.
- External answer: Microsoft 365 Copilot
- No internal solution: No
- Evidence and size: Automated Integrated Reporting: AI Tools for Balancing Financial and Non-Financial Performance Indicators at Life Insurance Corporation of India, 2026; TripodAI: An Automated Rule-Based Extraction Tool for Assessing TRIPOD+AI Reporting Compliance, 2026; Automated Safety Testing and Reporting Application for Conversational Safety Monitoring of Generative AI Tools for Mental Health: Development and Validation Study, 2026.
- Compliance: 🟢 Green (G1, G2, G5) · no review needed
- Effort: Medium

- Impact: High
- Related past project: P-01 KAi Assist rollout
- Tool owner: AI Enablement (CPO)
- Quality: rerank 0.671 · groundedness 0.9
- Employee feedback: pending (arrives later, see Airtable)

Internal tool improvement ideas

- Improve data visualization options for better insights (confidence: High)
- Add customizable report templates to standardize tone (confidence: Medium)
- Integrate feedback mechanisms for continuous improvement (confidence: Low)
