The current candidate scoring process is non-compliant, posing risks in hiring practices. An internal tool is not currently approved for this purpose.

Use case card

- Use case: Candidate Scoring Compliance
- Problem and frequency: We get about 400 applications per open role. To save time, a recruiter pastes the CVs into a free online AI tool, which scores each candidate from 1 to 10. Everyone below 6 gets an automatic rejection email with no human review. We want to scale this to all open roles next quarter. (Daily)
