

FMP-3110 · Automating Weekly Updates

Reference: FMP-3110 | Department: Other | Date: 9 Nov 2026 | Confidence: High (90%)

Executive summary

The weekly update writing process can be improved through automation, saving time and ensuring consistency.

Use case card

- Use case: Automating Weekly Updates
- Problem and frequency: Every Friday I write the weekly update for my team. I take an aggregated KPI table (contacts per category, average handling time, backlog size, with no names and no user IDs) and write about 150 words on trends, risks and one ask. It takes about an hour, and the tone is different every week. My team lead reads and approves the text before I post it in our team Slack channel. (Weekly)
- Internal answer: KAi Assist: Export the KPI sheet (aggregated, D2); Upload it in Analyse table; Ask for a short update with trends and risks.
- External answer: Microsoft 365 Copilot
- No internal solution: No
- Evidence and size: AI Automated Report Generation for Business Analytics, 2026; Generative AI for automated business report generation and analysis, 2025; Study of Generative AI in Automated Financial Report Generation, 2026.
- Compliance: 🟢 Green (G1, G2, G3, G5) · no review needed
- Effort: Medium
- Impact: High
- Related past project: P-03 FlowMate automation platform
- Tool owner: Internal AI Team

- Quality: rerank 0.671 · groundedness 1
- Employee feedback: pending (arrives later, see Airtable)

Internal tool improvement ideas

- Improve template flexibility for operations (confidence: High)
- Increase training on tool adoption (confidence: Medium)
- Enhance integration with live data sources (confidence: Low)
