What is slow, manual or unclear?

After each team retro we have 50 or more anonymous sticky notes. Grouping them into themes and drawing a simple process map by hand takes about an hour. There are no names on the notes, and the team reviews the result together.

Tools you use today (optional)

📝 **Your fix**
Steps, sources and a confidence score

🔒 Describe the process, not the people. Do not include names.

👉 **What to do**

1. Choose your **department** (required).
2. Describe **what is slow, manual or unclear** and why it matters (required).
3. Optional: add the tools you use today and how often.
4. Click **Find my fix** and wait about 45 seconds.
5. Read your report and **send feedback** at the end.

💾 Save your reference code (FMP-...) to check the status later.

Your problem

Grouping anonymous sticky notes into themes and creating a process map takes about an hour after each team retro.

Fix it with an internal tool

Use Miro AI to streamline the process. Follow these steps:

1. Access Miro AI for clustering workshop notes and drawing process maps.
2. Use the tool to group sticky notes into themes and create a process map.
3. Ensure no personal data is included in the notes.

> Request access to Miro AI for clustering workshop notes and creating process maps.

Approved external alternative

Miro is available for clustering feedback and creating process maps. It has no data limit.

1. Sign up for Miro.
2. Create a new board for your sticky notes.
3. Use the clustering features to organize your notes.

How others solve it

Companies use digital tools like Miro for clustering feedback and creating process maps. This reduces manual effort and enhances collaboration.

Is it allowed?

Your request is allowed as it complies with the green level, following rules G1, G2, G3, and G5. The use involves an approved internal tool for internal data without monitoring or evaluating employees.
